Who We Are

A consortium of:

- 1 Swiss SME specialized in Virtual Reality for rehabilitation
- 1 Swiss University Hospital with its Memory Center
- 1 Swiss University of Applied Sciences (HES-SO)
 - Physiotherapists
 - Nurses
 - Information systems specialists
- 1 Spanish research center about brain aging

Project idea

Integrated platform to perform **physical** and **cognitive exercises** to keep the best quality of life the longest

Looking for

We are looking for:

1. Partners that already developed services on tablets so we can integrate more services into the platform.
2. End users organisations to test the platform on a large population in different countries.
